TOM FAULKNER

Welcome to our product catalogue – where you will find
the entire TOM FAULKNER collection, including *Avenues*. Each
piece is shown complete with specifications and finish options.

Our specialisation is metalwork - either steel or bronze -
combined with glass, wood, or stone. I have always tried to use
the inherent qualities of these materials to create distinctive and
sculptural pieces whose lines and proportions can
speak for themselves.

If you can, please stop by our London showroom, set in the heart
of the Chelsea Design Quarter. Ask questions, play around with
our finishes, and explore the world I love so much.

Tom Faulkner

O ur workshop in Wiltshire is a centre of excellence. Our team of skilled craftsmen is dedicated to producing work of the highest quality.

We make every piece to order and many of our designs are fully customisable, with an outstanding selection of beautiful materials and finishes to choose from.

We put our heart and soul into everything we make, and are immensely proud to continue this Great British tradition of design innovation and excellence.

Finishes and materials

We have many different and beautiful finishes for our metalwork, and several options on table tops, including choices of glass, wood, stone and marble.

All of our specialist finishes on steel and bronze have been created by us and they are all applied by hand. We have developed them all ourselves and they are unique to us.

We have a choice of leathers and fabrics for our upholstery.

Steel finishes

Steel may have either a **Standard finish** - this is normally a powder coating, which is very durable and even, or a **Specialist finish** - this is applied by hand using metal powders, varnishes, and pigments.

Hand polished finishes

Many of our pieces can be made in stainless steel or bronze,
which can be hand polished to a mirror finish.

Polished bronze

Polished stainless steel

Bronze patinas

Heat and chemicals can accelerate the aging process of bronze, giving beautiful, deep patinas
in a variety of rich and varied colours. No two pieces are ever identical.

Aged bronze

Stone table tops

Marble is one of the most enduringly luxurious materials, always full of character, and no two pieces are ever exactly the same.

Wooden table tops

The texture and warmth of wood can combine beautifully with the clean, crisp lines of our table bases. Being a natural material, there will always be slight colour and grain variations in wood, but as a table is used it will develop a unique patina to tell its own story. Most of our table tops are oiled and waxed, but there are different finishes available, depending on end use.

Antiqued mirror glass

Many of our tables are available with beautiful antiqued mirrored glass, replicating the age and warmth of vintage mercury mirrored glass. Each piece is made individually so no two pieces will ever be exactly the same. We also supply "Verre Eglomisé" (gilded glass) mirror, where metal leaves are applied to the back of glass giving a beautiful soft reflection. Here the overlapping metal leaves can also be seen, adding subtlety and variation.
